

## Mar-Kel70 1v01 (free version\*) 9.5mm slots for EL70eN or EL70 © 2009, 2010 planet\_10 enterprises limited 11-april-10 | designed & drawn by D Dlugos free for non-commercial use only

\*(an enhanced version accompanied by more drawings & details will be available for a fee, beta testers required)

## Notes:

o/ designed for modified P1o EL70eN, will work well with stock

1/All panels 15mm (5/8") thick. Baffle can be 18mm (3/4") as shown or 15mm (5/8").

shown or 15mm (5/8").

2/ Ports are ~ 65mm (2 9/16") long by 9.5mm (3/8") thick - 3
per side with 4 - 33.8mm (1 11/32") solid spacers (spacers run all
the way to the back of the box)

3/ brace shape is only suggestive – prime purpose is to brace
speaker, it needs to be about 35-40% holes. (ie if you have to
mount a terminal cup in the middle, you'll want to make sure
the brace allows clearance)

A/ All internal panels lined with  $\sim 1/2$ " (12mm) cotton or wool felt (preferred), 3/4" (19mm) poly-fluff batting, or 1" (25mm) fiberglass. Note that it is hard to get into the box after it is sealed up so binding posts should be on a removable platform.
